Re: *Progeny LMS, LLC Petition for Rulemaking to Amend Part 90 of the Commission's Rules Governing Location and Monitoring Service To Provide Greater Flexibility, RM-10403.*

Oral ExParte Presentation

Dear Ms. Dortch:

On Monday, July 1, 2002, Janice Obuchowski (President), Albert Halprin (Vice President and General Counsel) of Freedom Technologies, Inc. and Barclay Jones, met with Legal Advisor Paul Margie of Commissioner Copps' office, to discuss several issues related to the above-captioned rulemaking petition. The matters discussed at the meeting including the views expressed in the comments and replies filed in the proceeding, including the greater flexibility being sought by Location and Monitoring Service (LMS) licensees in the 902-928 MHz band. Progeny has sought the elimination or modification of rules that:

- (1) Prevent the aggregation of existing multilateration LMS sub-bands;
- (2) Restrict real-time interconnection with the public switched telephone network (PSTN);
- (3) Restrict the types of communications or services that LMS operators may provide; and
- (4) Require field-testing of LMS devices and establish a "safe-harbor" presumption of noninterference to LMS operations by unlicensed wireless devices.

The meeting also included a discussion of changes in the markets for **LMS** services and Part 15 wireless networking devices. In addition, the participants explored the possibilities regarding Progeny's suggestion for a negotiated rulemaking or industry coordination approach to resolve any potential interference issues.
